

The era of transformation in India has begun, with technology making progress in all our lives and changing the game for many industries and sectors. The time has come to transform the social sector with technology.

Aid On collaborates with companies with a social mission and trusted NGOs to support social projects with high impact on the community.

We aim to make charity a habit of people by leveraging technology to make micro-donations easier and quicker.

### **Description**

We are looking for someone who is very self-motivated, versatile and gets stuff done. An enthusiastic person who wants to take control of things and work on projects which are new and innovative. It is a chance to tell the world the story of our product. Work along-side the founder and get to experience the thrill of a start-up.

### **Requirements**

1. Good communication skills.
2. Proficiency in written English.
3. Proficiency in using MS office. Especially Excel, Word, and Power-point.
4. Good computer skills.
5. Tech-savvy, quick learner, proactive.
6. Identify customers' needs and gaps and suggest new ideas.
7. Assisting the marketing team in developing content for advertising campaigns.
8. Contribute during content development.
9. Coordinate with social media team.
10. Interested in creating social impact through innovative ideas.

### **Approach/Mindset**

We are a growing start-up which has just got into a lift. You will be getting in on the first floor and will be given a chance to work on multiple projects. People with a growth mindset along with empathy are a great fit. The goal is to make people aware about donations and show them the positive social impact, which solidarity can create.
